Ballooning trips from Paarl over the Bergriver Valley over some of the world's best wine lands and the Malmesbury wheat fields lets you see Cape Town with different eyes. You have the opportunity for sightseeing in a totally unique way when you float gently across the sky.

Ballooning in Cape Town has its own set of rules, that is why our balloons only launch between November and March as the weather is kinder during these months. The winter months are cold and the winds are unpredictable hence why the balloons do not launch during these months.

Safety of our passengers is non-negotiable and if the weather is not good enough for us to launch, we must cancel the trip.
