## INTRO

Flying a jet is a dream come true and if you want to make your dream a reality and fly a British Aerospace BAe Buccaneer, you are going to have to come to Cape Town to do that. This magnificent aircraft is maintained at Thundercity in Cape Town for those who dare to fly free as a bird.

The BAe Buccaneer is a tandem, two-seater nuclear strike attack bomber that was designed specifically for low level, high speed attacks. This sleek craft is powered by two Rolls Royce Spey non-afterburning bypass turbofans and these extraordinary engines can perform at zero altitude just below the speed of sound.

**WE ARE SORRY! THIS JET IS CURRENTLY UNAVAILABLE, PERHAPS YOU'D LIKE TO TRY ONE OF OUR OTHER JET PRODUCTS?**

## MORE

### **What is the deal?**

- Spend half a day at the world renowned facility at the International Airport in Cape Town.
- Full briefing on jet flight
- Full training on ejector seat
- Survival training
- Training for the kit as well as all your equipment
- Oxygen management
- Flight suit provided
- An hour flying in an ex-military jet in the skies over Cape Town, South Africa
- Certification

### **Where is it?**

All training and departure of jets take place at the Cape Town International Airport at our own international facility.

### **When is the best time to do it?**

This incredible adventure is available all year round, but from May to August is the wettest time in Cape Town and this means that low cloud cover can prevent our jets from departing. It is often better to wait for perfect flying conditions for this will result in an exceptional flight.

### **What do we need to bring?**

We provide everything you will need for the day; you only have to bring your camera along. There will also be a video available of your day as an optional extra.

## INTINERARY

---

### **Technical Specs Blackburn Buccaneer S2B**

These aircraft were designed for the Royal Navy to fly low and fast and for the delivery of nuclear weapons to enemy targets. The final three Buccaneers were used primarily in research programs. The final one ended service in February 1995. All three of these aircrafts are now part of the Thunder City Squadron. When you come for a jet flight you have the choice of completely black or an aircraft in red, white and blue.
