INTINERARY

Quad Bike Game Viewing Trails

A quad bike ride is a brilliant way to do game watching as it gets you so much closer to many of the animal species than if you are in a vehicle and you have a double adventure of game watching and quad biking.

20 minute route

This is an easy trail for beginners that take you on a trip around the grazing spot of the animals.

1-hour route

This trail starts with the 20-minute route and then takes you to where the abseil site is and back. This trail is for more advanced riders.

2-hour route

This trail adds on another hour to the established 1-hour trails and takes you through a section of the property that is quiet with some rough terrain for good quad bike navigation and you also go through a bamboo forest.

What to bring with

- Comfortable clothes that will not chafe or restrict you during the ride.
- Spare set of clothes for if want to change afterwards because you may get grimy and dusty.
