

QUADBIKING ADVENTURE CHALLENGE GARDEN ROUTE

ADRENALINE LEVEL 3 🔥🔥🔥

Quad biking is an off-road adventure that has to be experienced first-hand; you cannot simply watch it on your TV screen or from the sidelines and say that you know what quad biking is all about. It is an awesome adventure that will pit your knowledge, endurance and skill on four wheels against nature herself to see who comes out tops. Not only that, it is a scenic adventure, showing you an untamed and untouched Africa, as she should be, without a huge ugly human footprint all over her.

INTINERARY

About the Adventure:

This is one of the most popular quad biking adventures, spanning only 14.8km, not far if you are driving a smart car down a paved road. However, those 14.8km of the Quad Adventure Challenge will test you and send the adrenalin flowing. The challenge and the adventure of this experience lies in the terrain you will be taking on and not in the speed you will be trying to achieve. On this adventure you will come across all types of terrain, you will need to negotiate your quad bike across flats, hills, grass, rock, mud and a general rough terrain. Believe us when we say that speed is possibly your enemy on this adventure. We will take things at an easy pace, stop and take the time to explain the finer details before tackling any obstacle.

When we reach the halfway mark we will stop for a water break at the highest point to give us the most awe inspiring panoramic views of the surrounding landscape. On a clear day you can see Gericke's Point (Swartvlei), Wilderness Beach and Buffelsbaai. It is also at this point that we catch our favorite type of scorpion, the *Opistacanthus Capensis*. Don't worry too much about that just now; we will let you in on all the juicy details about that little fellow when we get to him on the day and some other interesting tidbits about other scorpions in general too. You will even have the chance to pose with the little guy, if you dare.

Its All About Safety:

Your safety is our number one priority so we always include an Induction and Safety Briefing before we take you anywhere on the quads. Most of the areas concerning safety procedures and concerns are covered in that briefing. During the adventure your guides will always stop and explain and demonstrate how to negotiate any obstacles that may present you with any difficulty.
