INTRO

Fast paced racing action is the dream of many little boys; not to mention the many not so little ones too. Guys simply love the feel of the power, the adrenalin and the excitement that can only come from being behind the wheel of a Reynard racing car. That is why this racing car adventure package is perfect for a day of fun and fast cars in Johannesburg.

Adventure Gift Vouchers make awesome Birthday Presents, Christmas Gifts & Father's Day Treats!

There is just no better a place to kick back and relax while networking, closing deals and learning the tricks of the trade in how to drive a race car at the same time. Even better yet, team building, corporate events, networking, entertaining and more are fully catered for by the Fantastic Racing Platinum Event. When you book a Platinum Event, the events team will take care of every last detail to ensure that the event is a success and that your clients both enjoy their time and are impressed.

MORE

What is the deal?

- Fleet of Reynard's (F1 type cars) branded with your company logo and individual driver names
- Full safety brief, driver training, mechanical supervision, pit crew and safety marshals
- Marshals and safety spotters around the circuit
- Race gear rental (Race suits, racing shoes, balaclavas, helmets and gloves)
- Branded best driver award
- Snacks and refreshments during and after the event
- A photographer on the day providing a web-link to access images of the day
- Approx 28 laps broken into 3 / 4 sessions

Where is it?

- Johannesburg Kayalami, Zwartkops or Westbank tracks

When is the best time to do it?

- All year round, weather permitting. The winters in Cape Town are wet but dry in Jo'burg, and vice-versa in the summer

What do we need to bring?

Everything is provided, from snacks to drinks and that includes a selection of alcoholic beverages and champagne for post event celebrations.

INTINERARY

The Race Day in detail

Extensive driver and safety briefing

The Platinum Event focuses heavily on safety while offering you and your clients the ride of your lives.

Introduction to the racing cars

These are real racing cars with different consoles to normal road cars; drivers need to thoroughly familiarize themselves with the cars.

Sighting laps

Drivers need to get used to the track and as such are taken on sighting laps to get used to the track. In this section, we extend the driver training and explain the racing line, brake points, turn-in points, apexes, and corner exits.

Getting kitted up

Safety and comfort enhances the overall experience of each driver. On the Day of the event, each driver is supplied with a balaclava, helmet, gloves, racing overalls and racing boots.

Seat fitting

This is the proverbial moment of truth, that moment that each driver at the event has been eagerly awaiting. It is

time to get in behind the wheel of a world-class single-seat race car. As each driver is differently sized, a driver must be fitted into the car to ensure that they are able to drive comfortably and safely.

Please Note

There is a height and weight restriction for the cars.

- Height restriction: 1.95 meters (6ft4in)
- Weight restriction: 140kgs (22 stone)

Racing

You cannot drive a racecar without confidence. Drivers build confidence behind the wheel with warm up laps behind a pace car, learning the ropes safely.

Once up to speed, literally, drivers receive four 15-minute sessions. Now, that may not seem like a long time to many but that is a long time on a racecar. Between their sessions drivers have the opportunity to rest, rehydrate and to receive training. This is also the opportune time to reflect on their performance and in order to better it in their next session.

The Cars

The cars driven are genuine racecars built by Reynard. Reynard constructed the Original F! Honda Bar cars built for the feeder series to Camp Cars in the United States. These racecars are fully race configured with specially tuned V6 Dodge engines that offer you all the raw horsepower of a racecar with the safety a novice can handle. Each car has a carbon fiber chassis, built to FIA safety standards and pulling 450 BHP/per ton.

The Race Tracks

There are currently four different tracks available for this exciting event, one in Cape Town and three in Johannesburg.

Johannesburg

Johannesburg offers three circuit options, depending on availability.

Kyalami

Kayalami offers nothing less than an excellent racing circuit that offers even the weathered pros a challenge. This track is located halfway between Johannesburg and Pretoria/Tswane, in Midrand. It is an easy to get to classic. [www.kyalamiracing.co.za]

Westbank

While Kayalami offers history Westbank offers you a more modern racing taste with its large oval banked track that caters to the American racing style. Westbank circuit allows racers to experience thrilling straights followed by tight sections leading into enormous flowing turns. The Westbank track is located close to the Johannesburg International Airport, which is ideal for both international and regional visitors alike. [www.WesBankraceway.co.za]

Zwartkops

Just as Kayalami, Zwartkops is located in Midrand, between Johannesburg and Pretoria. In terms of length, the Zwartkops circuit is a small track, but it has no shortcomings in terms of racing challenge. The Zwartkops track is the easier track to learn in one day and this is ideal for the one day Platinum Event. It is also well worth noting that the Zwartkops track offers fantastic entertainment facilities, making it a favorite. [www.zwartkops.co.za]

Additional useful information

Weather

It is the responsibility of the host to ensure that all events are safe. The material safety of the racecars is affected by weather; wet weather in particular. It may be necessary to cancel the event due to safety reasons in the event of heavy rain or even, on occasion, damp conditions. As a result of this, Adventure Bookings is required to consider the possible conditions and weather forecast when booking events on order to avoid running the risk unnecessary cancellations.

Johannesburg

Johannesburg enjoys paradoxical weather conditions, dry winters and wet summers. This means that Joburg winters are ideal, sunny with very little risk of rain, for motor racing. Johannesburg summers traditionally enjoy summer afternoon rains, for this reason events booked for summer start early so that the racing is completed before the rain catches up with us.

Clothing

One of the number one questions we are always asked is what clothing the racers should wear or bring with. While we provide all the racing gear, we suggest attendees bring or wear the following:

- Running (sports) shoes
- Socks
- Shorts
- T-shirts
- Jersey in winter
- Cap (for sun protection)

Safety at the track

Safety is the number one priority at any of the events that Adventure Bookings organizes. All participants must attend extensive driver and safety briefings before the event, which all events have. In addition to this, there are medically trained marshals at the racetrack and an ambulance on stand by, just in case, one can never be too careful.
