INTRO

It follows the same basic principles, just substituting sand for the snow and warm summery weather for the cold. You get just as much of an adrenalin kick out of carving your way down a giant sand dune as you do a snowy slope.

Forget about snow and cold winter weather and come down to Cape Town for some summer sun, sand surf and fun. Sandboarding is the summer cousin of snowboarding and offers you just as much fun. It follows the same basic principles, just substituting sand for the snow and warm summery weather for the cold. You get just as much of an adrenalin kick out of carving your way down a giant sand dune as you do a snowy slope.

Don't believe us? Well, then come on down and get a good dose of sandboarding to change your mind. Even better yet, get the best of both worlds by opting for our double whammy combo adventure. ITINERARY

Operating times:

- 11h00 to 17h00
- Mondays, Wednesdays, Fridays
- Daily in season

You will be spending three quarters of the day showing the giant sand dunes near Cape Town who is boss. Your expert instructors are there to let you in on all the sandboarding secrets and knowledge they have gained over years of practice and experience. You will be taught the basic fundamentals of professional sandboarding, how to do it right and safely. The instructors make their teaching accessible to everyone from absolute beginners to those wanting to up their level of performance. So you will always get something out of the experience.

After you have tamed the dunes it is time to ditch the sand and kit up in your jump suit, but not before a safety briefing. Enjoy the flight up to 10,000 feet and then it is time to take the plunge. Tandem skydiving is perfect for complete beginners and those who have never jumped before. You are attached to a professional, certified skydiving instructor via a harness. Special tandem skydiving parachutes and equipment is used to ensure your safety throughout the jump. You will experience a 25-30 second free fall after which the parachute will be deployed and you will float back down to Earth, to the drop zone.

Please Note:

- All skydiving participants must not weight more than 100kg for safety reasons
- You will receive certification as a memento of your skydive
- You may invest in the optional DVD of your skydive at an additional cost
