INTRO

Nothing can beat the adrenaline rush of skydiving and Cape Town boasts one of the most spectacular drop zones on the planet.

Sky Diving in a Tandem Jump Gift Experience Vouchers are Available.

Just going up in the aircraft is a treat all by itself as you see the Mother City spread out below between Table Mountain and the always busy Table Bay harbor.

Now, what if you are not sure you are ready to go all gung-ho into skydiving or you want to experience the thrill without having to learn all the basics and put in the hours? The answer is simple; tandem jump is what you want and you have come to the right place for that. You can experience the glory of freefall while strapped security to your tandem instructor without having to worry about a thing in the world.

MORE

The Jump

- First there is a 15-minute ground briefing.
- Then we take off and you have a 20-minute airplane ride with simply spectacular views of Cape Town, Robben Island, the West Coast and Table Mountain.
- You will be strapped to a Tandem instructor with a specially designed harness that in turn is attached to a specially designed parachute that is large and strong enough to support you and the tandem instructor.
- Then THE moment arrives and the airplane door opens and out you and the tandem instructor goes, securely harnessed together. You will have a 120mph/200kph freefall that lasts about 25-30 seconds from 9,000 feet or alternatively 35-40 seconds freefall from 11,000 feet.
- The tandem instructor opens the parachute at about 5,000ft and the two of you float gently in a parachute ride to the ground in a drop that lasts about 3-4 minutes.

We do open-date gift vouchers that you can hand to the recipients as gifts on a special day. This allows the recipient the flexibility to make the final booking on a date that suits his/her personal schedule. This also turns the gift into a “double whammy” gift as the recipient receives the voucher on the special day and then has the anticipation of going on the adventure on a suitable date.

Our open date vouchers are valid for a period of 6 months from date of issue; this is a precaution to guard against price increases only, the value of the voucher is never lost. Should the participant not use the voucher within that time period, the value is still there, and if there has been no price increases, the recipient uses the voucher as is. If after the six months grace period there has been a price increase, the recipient will be liable to pay in the price difference only.

INTINERARY

Restrictions

- The maximum weight for a tandem passenger is 105 kg. Anyone heavier will only be allowed to jump at the discretion of the tandem instructor.
- Minimum weight is 55 kg.
- To be able to do a tandem jump you must be in general good health.
- Any tandem jumpers under the age of 18 must have parental consent.
- Minimum age: preferably 16, but flexible, depending if person makes the minimum weight.
